# Our History

Founded in the late 1990s, RIDA T.S. initially specialized in ultrasonic flow meters, metering packages, and custody transfer systems, establishing a reputation for precision and innovation.

Over the years, we have expanded our service offerings to include comprehensive engineering, procurement, and technical solutions across Libya's oil, gas, and energy sectors, among others.

Through strategic alliances with global industry leaders, we consistently deliver high-quality, reliable solutions that adhere to international standards. Under the leadership of Haitam Glesa, RIDA T.S. continues to drive industrial progress and excellence, contributing to the development of the region's infrastructure and energy sectors.

# Message from our CEO

”

We  
Enable  
Progress

”

Welcome to RIDA Technical Services.

Our journey began with a vision set by my late father, Mr. Mohamed Glesa, to serve Libya with integrity and uncompromising quality. Today, RIDA T.S. stands as a

trusted partner in driving industrial progress, combining global standards with local expertise.

We take pride in delivering tailored solutions that empower our clients, prioritize safety, and promote sustainability. Our focus is not just on achieving excellence but on building lasting partnerships that foster growth for Libya and its neighbouring region.

Thank you for placing your trust in RIDA T.S. Together, we shape a future of innovation, progress, and resilience.

**Haitam Glesa**  
CEO, RIDA Technical Services

# About RIDA T.S.

## Vision

To be the premier partner of choice for engineering and industrial solutions in the greater North-African region, recognized for setting new standards in innovation, quality, and sustainability.

## Mission

To deliver reliable, world-class services across our different areas of expertise, adhering to international standards. Through tailored, client-centric solutions, we drive progress, enhance safety, and ensure operational efficiency to support national and regional development.

## Core Values

- ▼ Integrity
- ▼ Safety
- ▼ Excellence
- ▼ Client-Centricity
- ▼ Innovation
- ▼ Sustainability
- ▼ Inclusivity
- ▼ Legacy & Progress

# Safety, Sustainability, & Social Responsibility

At RIDA T.S., our commitment to Health, Safety, Environment (HSE), Social Responsibility, and Sustainability is at the core of our operations. These principles guide every aspect of our work, ensuring a safe and responsible approach to both our workforce and the environment, while also fostering positive social impact.

## Health, Safety, and Environment (HSE)

The health and safety of our employees, clients, and stakeholders remain our top priority. Our HSE Policies system aligns with global standards, ensuring a proactive safety culture that minimizes risk and maximizes operational efficiency.

- **Zero-incident goal:** We strive for zero workplace incidents through rigorous safety protocols and continuous monitoring.
- **Ongoing training:** We prioritize regular HSE training, embedding safety awareness and best practices into our daily operations

## Corporate Social Responsibility (CSR)

We believe that a successful business is one that contributes meaningfully to the communities in which it operates. RIDA T.S. actively engages in programs that support education, health, and social development, working to improve lives and build sustainable futures.

- **Empowering communities:** Through targeted initiatives, we contribute to the growth and development of future leaders.
- **Strategic partnerships:** We collaborate with governmental and non-governmental organizations to amplify the positive impact of our CSR efforts.

## Sustainability

At RIDA T.S., sustainability is integral to our operations. We deliver innovative, energy-efficient solutions that reduce environmental impact and promote long-term growth.

- **Energy Innovation:** We incorporate renewable energy and advanced technologies to optimize efficiency and reduce consumption.
- **Resource Efficiency:** Our projects focus on minimizing waste and maximizing energy use.
- **Strategic Collaborations:** Utilising our vast network of leaders in sustainable energy, we drive green innovation.
- **Environmental Stewardship:** We adhere to global standards, continuously improving our sustainability practices.

# Our Services

## # Engineering

- Basic and Detailed Design Packages
- Feasibility Studies & Site Surveys
- Engineering Solutions for Civil, Mechanical, Electrical, and Control Systems
- Risk Management & Safety Assessments
- FEED Services

## # Procurement

- Procurement Planning & Execution
- Vendor Selection & Coordination
- Subcontracting & Purchasing
- Logistics & Supply Chain Management

## # Construction

- Labor Management & Site Coordination
- Mechanical and Civil construction, and installation.
- Electrical and Control System Installations
- Piping Activities & Modifications
- Pre-commissioning & Commissioning Services

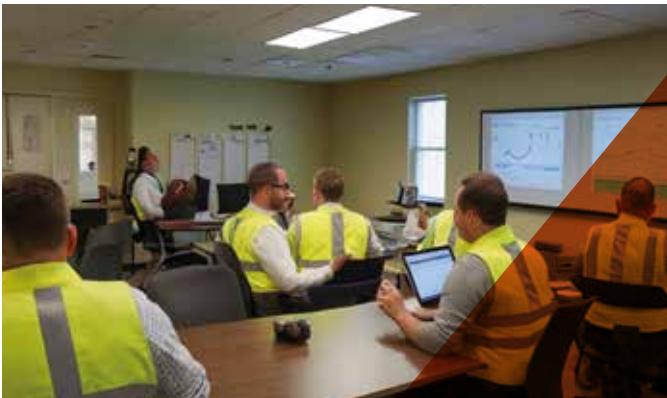

## # After Sales

- Preventive & Corrective Maintenance
- Vibration Diagnostic & Analysis
- Comprehensive Maintenance Solutions for Equipment & Systems
- After-Sales Support & System Upgrades

## # Training

- Instrumentation & Control Systems
- Metering Systems
- Rotating Equipment
- Operation & Maintenance
- Tailored Training Programs

# Areas of Expertise

## # Oil & Gas

At RIDA T.S., we navigate the complexities of the oil and gas sector with a comprehensive, end - to - end approach. From upstream exploration to downstream distribution, we deliver tailored solutions that enhance operational efficiency, safety, and sustainability. Our expertise covers everything from facility design and installation to ongoing maintenance and optimization, ensuring our clients stay at the forefront of industry advancements.

## # Power Generation

Powering the future, RIDA T.S. brings innovation and reliability to the power generation sector. Whether conventional or renewable, our solutions span the entire lifecycle of power plants, from conceptual design to construction, installation, and lifecycle management. We focus on enhancing plant performance, optimizing energy efficiency, and ensuring long-term operational sustainability in the face of ever-changing energy demands.

## Driving Progress, Delivering Excellence

## # Water & Wastewater

We understand the vital importance of water and wastewater management. RIDA T.S. offers integrated solutions for both the treatment and distribution of water, as well as the safe management of wastewater systems. From designing efficient treatment facilities to providing ongoing system maintenance, we help clients meet the environmental challenges of today while ensuring sustainability for the future.

## # Heavy Industry

RIDA T.S. stands as a trusted partner for the heavy industry sector, providing customized solutions across various industrial applications. Our expertise ranges from large-scale manufacturing to infrastructure projects, offering both technical design and practical implementation. With a focus on system reliability and operational efficiency, we address the unique challenges of this sector with cutting-edge technology and unparalleled service.

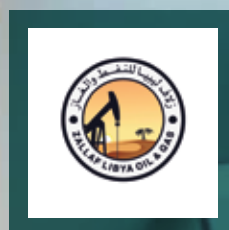

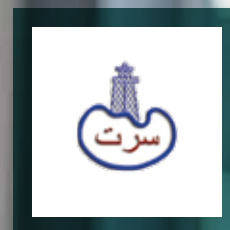

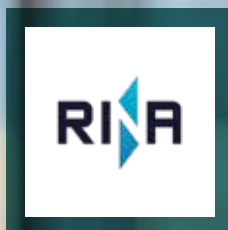

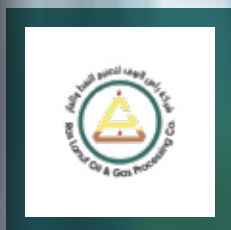

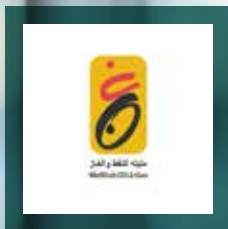

## # Food & Beverage Industry

In the fast-paced food and beverage industry, RIDA T.S. delivers comprehensive solutions to enhance operational effectiveness and compliance. From initial system design and equipment installation to upgrades and maintenance, we ensure that production processes run smoothly and meet the highest safety standards. Our understanding of industry-specific challenges helps clients improve efficiency and reduce downtime in this critical sector.

Quality Beyond Expectations,  
Safety Without Compromise

# Strategic Partners

# Our Projects

## Sirte Oil Company – Measurement Skid & Control System Upgrade (2010-2011/Brega)

### Project Scope:

RIDA T.S. delivered a transformative upgrade to the measurement skid for Sirte Oil Company. The scope included the installation of five cutting-edge ultrasonic flow meters integrated with a state-of-the-art control and supervisory system.

### This project involved:

- Complete redesign and installation of piping and valves to accommodate the new configuration.
- Design, supply, and commissioning of control cabinets featuring advanced SCADA and flow computing systems.
- Execution of 60m of piping activities, including NDT, blasting, and painting, ensuring compliance with international standards.

### Impact:

This project redefined precision and reliability in fluid measurement, establishing RIDA T.S. as a leader in advanced metering solutions for the oil and gas industry.

## Harouge Oil Operations – Chemical Injection Skid Supply (2019-2020/Amal Oil Field)

### Project Scope:

RIDA T.S., in collaboration with Milton Roy, designed, manufactured, and supplied a corrosion inhibitor injection skid for Harouge Oil Operations. This system plays a crucial role in preventing corrosion and extending the lifespan of field equipment.

### This turnkey solution includes:

- Complete skid system design and manufacturing tailored to field specifications.
- Rigorous testing to ensure optimal performance before delivery.
- Fully assembled and ready-for-operation delivery, minimizing installation time.

### Impact:

By delivering a highly reliable corrosion protection solution, RIDA T.S. enhanced the integrity and longevity of Harouge Oil Operations' field equipment, reinforcing its expertise in precision-engineered chemical injection systems for the oil and gas sector.

## General Electricity Company (GECOL) – Gas Turbines & Generators Overhauling (2020/Western Mountain Power Plant)

### Project Scope:

RIDA T.S. undertook a comprehensive inspection and major overhauling of gas turbines and generators at the Western Mountain Power Plant (WMPP) for General Electricity Company (GECOL). The project required specialized expertise in turbine maintenance, ensuring optimal performance and reliability.

### This project involved:

- Major inspection and overhauling of gas turbines and generators.
- Replacement of critical components, following industry-approved procedures.
- Balance of Plant (BOP) maintenance, including a full inspection and servicing.
- Project duration: 4 months, ensuring minimal downtime and maximum efficiency.

### Impact:

By executing a highly technical overhaul, RIDA T.S. played a key role in enhancing the reliability and efficiency of the power plant, contributing to GECOL's mission of ensuring stable power generation across Libya.

## Azzawia Refining Company – Upgrade of Fuel Gas Control System (2019-2020/Azzawia Refining Plant)

### Project Scope:

RIDA T.S. successfully upgraded the fuel gas control system at Azzawia Refining Plant, enhancing operational efficiency and system reliability. The project involved modernizing control infrastructure, integrating advanced flow measurement, and executing civil, electrical, and control system modifications.

### This project involved:

- Installation of new control cabinets, gas flow meters, and control valves to optimize fuel gas management.
- Extensive civil and electrical works, including piping modifications, cable laying, and tray installation.
- Design and installation of two access platforms to improve operational accessibility.
- Full pre-commissioning, commissioning, and startup, ensuring a seamless transition to the upgraded system.

### Impact:

This upgrade improved system control, accuracy, and safety, reinforcing RIDA T.S.'s position as a leader in control system modernization for the oil and gas industry.
